Who did the coordination: Wanchan Ohyan

How many people from Hispanic churches helped/ participated in this event: 2

How many people from Chinese churches helped/participated in this event: 1

What or whom we need to pray for? What can we make improvements?

When we arrived there, 2 groups, with 2 people for each group, from Jehovah Witness were already there. They held their Bibles and talked to individual alien workers. All of them are Spanish speaking. They look new and uncertain to this kind of works. However, they made efforts to step out and did some sharing with several workers. Then they left.

Compared to them, Mr. Joel Lara was more experienced and courageous. While I was gone to buy donuts and drinks, Joel walked around by himself and distributed spiritual materials. When I came back with food and drink, Joel whistled them to come to the corner in a very natural way. It seemed that he was their old friend, getting them to the corner to have food and drink. Then, I saw a crowd of about 30-35 people coming to us. During the preaching, I prayed very hard and saw God mightily working on these alien workers through Joel. Even though we were only a small number of Christians with very limited ability, God had used us to do his powerful work.

I always believe that God wants us to be his **faithful** servants, not necessarily “successful” or “popular” ones. During this year, we found the number of alien workers around this area has been down dramatically. We used to have 70-100 workers. Now, we can only gather 20-35 people. However, this is still a good number of people. These people, standing on the streets and looking for jobs, still need God to help them understand the meaning of their lives and the purposes behind their hardship. May God continue his powerful works on these alien workers. May God help us continue to be his faithful servants. (By *Wanchan Ohyan*)
